MY BATHROOM...

SHAREEN JOEL

A practical yet beautiful pamper zone is what greets this multi-disciplined designer every day

Q My morning ritual is to... Wash my face with beautiful skincare products from Mecca Cosmetics.

Q Bath or shower, which one do you love and why? I absolutely love taking a shower. It gives me time to wake up and gather my thoughts for the day ahead.

Q What do you most love about your bathroom? The natural light that pours in every morning. Even though our kids have their own separate bathroom, they love to share ours so we get to spend a little time together before they rush off to school.

Q What luxuries do you think all bathrooms should have? Natural light, adequate storage and natural materials - either timber or marble.
