## Sorrento Beach House

Architect/Location: **Shareen Joel Design**  
**Victoria, Australia**

A relaxed coastal retreat accommodates a family of four. With plenty of room for entertaining family and friends, the shared and casual beach house also includes plentiful storage for the husband and son's sailing equipment. The residence choreographs a relaxed atmosphere for taking in the ocean breezes. This appealing timber structure achieves a tasteful pragmatism without becoming overly precious. Complete with an outdoor shower, the house encourages both recreational activities and rewarding introspection along the water's edge.
